

Elephant Talk Announces Heads of Agreement with Tommy Telecom

SCHIPHOL, the Netherlands, April 7, 2009 – (PR NEWSWIRE) -- Elephant Talk Communications, Inc. (OTC BB: ETAK), an international telecom and multimedia content distributor specializing in carrier grade mobile enabling platforms, today announced that it has signed a Heads of Agreement contract with Tommy Telecom BV, a rapidly growing Mobile Virtual Network Operator (MVNO) active on the Dutch market. Tommy Telecom will migrate its customer base from their existing provider to the Elephant Talk Mobile Virtual Network Enabler (MVNE) platform immediately.

Robert van de Rhee, CEO of Tommy Telecom, stated, “Changing our provider to Elephant Talk will immediately help grow our market share in the Dutch market. Elephant Talk has superior flexibility and speed combined with excellent reliability in service delivery. We have found the perfect partner who can meet all of our prerequisites and meet the needs of our individual clients.”

Bas Falkenburg, Business Development Director of Tommy Telecom, added, “We chose the flexible Elephant Talk MVNE platform since it compliments our strategy of combining mobile telephony and the internet to create a digital magazine platform to better facilitate access to our media- and retail partners.”

“The state-of the art technology of Elephant Talk’s platform allows us to support the customer migration in a matter of weeks and will help us along with the marketing power of the Tommy Telecom team, create many new successful products for the Dutch consumers,” said Martin Zuurbier, CTO, of Elephant Talk. “We believe strongly in the additional value we can create while working together with Tommy Telecom. This is an excellent example of the flexible capabilities of our platform. As we are entering the next phase in the industry, MVNO’s are requesting fast compliancy to their dynamic needs without a higher upfront investment or substantial increase in operational expenses. Elephant Talk has one of the most advanced full MVNE systems in the world combined with superior project managers for a fast integration including a directly incorporated flexible CRM/Billing solution which offers a wide range of possibilities designed specifically for an individual client.”

About Tommy Telecom BV

Tommy Telecom BV, a rapidly growing MVNO in the Dutch market, is founded in 2007. One of the specialties of Tommy Telecom is to combine mobile offerings with marketing concepts aimed at many different target groups in the residential market. For example, currently Tommy Telecom is closely working together with the ‘Nationale Postcode Loterij’, a Dutch lottery organisation, delivering complete mobile packages directly to lottery ticket winners.

About Elephant Talk Communications

Elephant Talk Communications is positioning itself as an international telecom operator and enabler/systems integrator to the multimedia industry by facilitating the distribution of all forms of content as well as mobile and fixed telecom services to

global telecommunications consumers. The Company provides traditional telecom services, media streaming, and distribution services primarily to the business-to-business (B2B) community within the telecommunications market where it has a presence. The Company's global footprint as a fully licensed carrier, supported by its propriety IN (Intelligent Network) and Billing/CRM (Client Relationship Management) Systems, has been designed to offer cutting-edge solutions to the increasingly competitive global multimedia industry. Elephant Talk's telecommunications platform eliminates the usual limitations caused by national borders, networks, devices or media and, therefore, enables its B2B customers to operate as independent telecom and multimedia distribution organizations. Elephant Talk is also a system integrator and developer for mobile telecom and content distribution solutions; and, as a Mobile Virtual Network Enabler (MVNE), the company has positioned itself as the premier outsourcing partner for both Mobile Network Operators (MNO's) as well as for Mobile Virtual Network Operators (MVNO's). At the same time, Elephant Talk assists its MNO partners to more efficiently provide a broad range of sophisticated services to their own existing base of MVNO's. Elephant Talk is positioning itself as the preferred MVNE partner of the larger, global Mobile Operators and currently operates sophisticated networks in over a dozen markets in Europe, Asia Pacific, and the Middle East. The Company was ranked fifth on the Orange County 2008 Deloitte Technology Fast 50. For more information, visit: www.elephanttalk.com.

Forward-Looking Statements

Certain statements contained herein constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on current expectations, estimates and projections about the Company's industry, management's beliefs and certain assumptions made by management.
