### About Elephant Talk Communications

Elephant Talk Communications is positioning itself as an international telecom operator and enabler to the multimedia industry by facilitating the distribution of all forms of content as well as mobile and fixed telecom services to global telecommunications consumers. The Company provides traditional telecom services, media streaming, and distribution services primarily to the business-to-business (B2B) community within the telecommunications market where it has a presence. The Company's global footprint as a fully licensed carrier, supported by its propriety IN (Intelligent Network) and Billing/CRM (Client Relationship Management) Systems, has been designed to offer cutting-edge solutions to the increasingly competitive global multimedia industry. Elephant Talk's telecommunications platform eliminates the usual limitations caused by national borders, networks, devices or media and, therefore, enables its B2B customers to operate as independent telecom and multimedia distribution organizations. Elephant Talk is also a developer for mobile telecom and content distribution solutions; and, as a Mobile Virtual Network Enabler (MVNE), the company has positioned itself as the premier outsourcing partner for both Mobile Network Operators (MNOs) as well as for Mobile Virtual Network Operators (MVNOs). At

the same time, Elephant Talk assists its MNO partners to more efficiently provide a broad range of sophisticated services to their own existing base of MVNO's. Elephant Talk is positioning itself as the preferred MVNE partner of the larger, global Mobile Operators and currently operates sophisticated networks in over a dozen markets in Europe, Asia Pacific, and the Middle East. The Company was ranked fifth on the Orange County 2008 Deloitte Technology Fast 50. For more information, visit: [www.elephanttalk.com](http://www.elephanttalk.com).
